

Literature List (Note 2B)

List of literature to be submitted with the tender bid. The bidder is asked to clearly specify all materials proposed for each separate intervention listed below (Item 1.1 - 1.9). The bidder must submit the technical specification for each material proposed for items 1.1 - 1.9 (and not just a list of materials). All product/materials used are to be eco friendly and least hazardous to the conservator-restorer. All materials should be approved for conservation and restoration, following the latest research in the field.

Item	Description	Reference in Technical Specifications
1.1	Materials for surface cleaning (soiling such as dirt and grime) of both the paint layer and of the canvas support	Section 4 - Terms of Reference
1.2	Materials for the removal of varnish and non-original paint (old retouching and overpaint)	Section 4 - Terms of Reference
1.3	Materials for the consolidation of the paint layer	Section 4 - Terms of Reference
1.4	Materials for the re-adhesion of the paint layer	Section 4 - Terms of Reference
1.5	Materials for lining or strip-lining	Section 4 - Terms of Reference
1.6	Materials for tear repair (such as patching and tread-by-tread mending)	Section 4 - Terms of Reference
1.7	Materials for the filling of paint losses	Section 4 - Terms of Reference
1.8	Materials for retouching	Section 4 - Terms of Reference
1.9	Materials for varnishing	Section 4 - Terms of Reference
